

Nothing but **HEAVY DUTY**.™

**Please keep this package and plastic bags for potential future service or repair needs.**

All **H** Class dust extractors must be decontaminated and packaged as per the instructions outlined below when returned for service.

**Please contact customer service to arrange all transport.**

**Customer Service - 1300 645 928**

**Do not return to retailer or service centre.**

**1** Decontaminate the outside of the extractor by using the extractor.

**2** Remove all accessories, hoses and brushes from the extractor.

**3** Remove the fleece bag from inside the extractor ensuring tub is empty.

**4** Wipe down the exterior of the extractor using wet wipes.

**5** Ensure the unit is closed and the intake cap is in place.

**6** Place the extractor into a 200UM clear bag\* and tape using duct tape. Repeat with second bag.

**\*2x 200UM (Micron) bags are included in box. Please contact customer service if you require additional bags.**
